Is your home or business at risk for flooding?

Come learn about flood proofing techniques!

Do you live in or near a floodplain and would like to learn about flood proofing actions you can take to reduce flood risk and decrease flood damages?

This is your chance to learn about different types of flood proofing techniques from the U.S. Army Corps of Engineers (USACE). The flood proofing discussion will include topics such as elevating buildings, wet and dry flood proofing buildings, and relocation/acquisition. Federal, state and local agency representatives will be on hand to discuss grant programs that may be available to property owners to reduce their flood risk, as well as other floodplain management topics, such as the National Flood Insurance Program and Community Rating System.

Workshop Information

When: Wednesday, June 19th, 5:00 p.m. - 7 p.m.

Where: Albany County Cornell Cooperative Extension
24 Martin Road
Voorheesville, NY

Registration is not required.

For more information on flood proofing please visit the USACE National Nonstructural Committee Website: http://www.usace.army.mil/Missions/Civil-Works/Project-Planning/nfpc/

Questions about the Workshop?
Contact Laura Ortiz, U.S. Army Corps of Engineers, at (716) 879-4407 or laura.v.ortiz@usace.army.mil

American with Disabilities Act (ADA) Information: The meeting site is accessible to persons with disabilities. Reasonable accommodations for people with disabilities are available upon request to Laura Ortiz before June 14th.

This workshop is being hosted by the New York Silver Jackets, an interagency team working together to reduce flood risk in the state of New York.
